

CDDL Recycling

We care about waste so you don't have to

100% Recycling Route for
Aky Print / Bubble Board / Correx ... We can help!

Plastic Waste is currently a huge problem globally and we want to do our bit to help!

During 2021 and 2022 CDDL Recycling have handled almost 400 tonnes of aky board.

During this time developments in the plastic recycling industry have been phenomenal and CDDL Recycling are pleased to have found a partner whom have developed a ClosedLoop solution to the aky print / bubble board / correx market.

CDDL Recycling are committed to gathering, baling and feeding these materials into a route whereby they are fully recycled and remanufactured back into the plastics, protection and print industry.

**Contaminated / Used
/ Dirty Aky Print are
Collected & Baled:**

These bales of Aky Print are loaded directly onto a conveyor where they pass under a guillotine and are chopped down to approx. 1 foot in length:

Chopped Aky Print is then shredded down to approx. 30mm in size, then washed several times to an acceptable cleanliness:

Once shredded and cleaned the Aky print is then extruded and any waste is removed before being pelletized:

The pellets are then fed back into the manufacturing line to produce new sheets of Aky Print / Correx / Bubble Board.

The products undergo vigorous testing and performance analysis to ensure the quality of the material meets specification every step of the way!

We care about your waste, so you don't have to!

Our Total Waste Management Solution is designed to take the weight off your shoulders, allowing you to concentrate on what matters, running your business:

- ▶ Free Waste Audit

We will work closely with you to understand your business, looking at all waste streams you produce, how these are stored and disposed of and how you currently record tonnages and movements.

- ▶ Proposal

The audit will enable us to then provide you a bespoke solution best suited to your business.

- ▶ Implementation

By choosing CDDL Recycling it means all of your waste requirements will be looked after by one partner. You will have a dedicated account manager that knows your business that you can call upon when needed. You can have peace of mind that all legislation will be adhered to and a full audit trail kept, will all documentation provided.
